Job Posting: Wastewater Treatment Operator

Are you ready to dive into an exciting career that combines environmental stewardship, technical expertise, and a commitment to public health? Join our team as a Wastewater Treatment Operator and make a difference in your community! Are you tired of the same mundane task day after day? In this exciting field you will be able to tackle a variety of challenges and tasks alongside an energetic team of professionals. If this sounds interesting to you, please apply, and come and learn what it's all about.

Position Overview: We are seeking a skilled and passionate Wastewater Treatment Operator to join our dynamic team. As a Wastewater Treatment Operator, you will be responsible for operating and maintaining our state-of-the-art wastewater treatment facility. You will play a crucial role in ensuring the proper treatment and disposal of wastewater, safeguarding the environment, and protecting public health. No wastewater experience is needed, we will train you; you need to be ready to learn and be willing to be part of a team. If you're looking for a rewarding career that offers challenges, growth opportunities, and the chance to make a positive impact, then this is the perfect job for you!

Responsibilities:

1. Wastewater Treatment Operations:
 - Operate, monitor, and control various equipment and processes in the wastewater treatment plant to ensure optimal performance and compliance with regulatory standards.
 - Conduct regular inspections and tests to assess water quality, chemical levels, and treatment efficiency.
 - Adjust treatment processes as necessary to maintain compliance and meet quality standards.
 - Troubleshoot and resolve any operational issues or equipment malfunctions to minimize downtime and ensure uninterrupted treatment operations.
2. Maintenance and Repairs:
 - Perform routine maintenance tasks, including equipment inspections, lubrication, and calibration.
 - Conduct preventive maintenance and respond to repair requests promptly to ensure equipment reliability and minimize disruptions to operations.
 - Collaborate with maintenance and engineering teams to implement equipment upgrades, modifications, or replacements as needed.
3. Process Optimization and Efficiency:
 - Identify opportunities for process improvement and optimization to enhance treatment efficiency, reduce energy consumption, and minimize waste generation.
 - Analyze data and trends and propose and implement operational adjustments or modifications to achieve optimal performance.
 - Stay updated on industry best practices and emerging technologies related to wastewater treatment to improve process effectiveness and efficiency.
4. Compliance and Safety:

- Ensure compliance with local, state, and federal regulations governing wastewater treatment and disposal.
 - Adhere to safety protocols and procedures to maintain a safe working environment for yourself and your colleagues.
 - Assist in preparing reports and documentation for regulatory agencies, highlighting compliance status, monitoring results, and operational performance.
5. Training and Collaboration:
- Participate in training programs and stay updated on the latest advancements in wastewater treatment technologies, regulations, and industry practices.
 - Collaborate with a diverse team of professionals, including engineers, laboratory technicians, and maintenance staff, to foster a culture of teamwork, knowledge-sharing, and continuous improvement.

Qualifications:

- High school diploma or equivalent (additional certifications in wastewater treatment are a plus).
- Ability to analyze data, troubleshoot issues, and make informed decisions.
- Excellent attention to detail and strong problem-solving skills.
- Effective communication and interpersonal skills for collaboration with team members and stakeholders.
- Willingness to work flexible hours, including nights, weekends, and holidays as required.
- Physical ability to perform manual tasks and work in various weather conditions.
- Ability to obtain a CDL if you don't have one already, which is preferred.

Join our team as a Wastewater Treatment Operator and be part of a critical mission to protect the environment and ensure the well-being of our community. We offer competitive compensation and comprehensive benefits, with an opportunity for up to 13 percent employer contribution to a Defined Contribution retirement plan, along with access to healthcare savings accounts and 457 accounts. SCCMUA offers full-time employees 10 paid holidays along with 5 personal days 10 vacation days, and 12 sick days annually after one year of employment. The current operator's hourly wage range is \$25.37-29.11 for 2024. Normal working hours are Monday – Friday 7-3:30 opportunities for professional development, and a supportive work environment.
